Twitter: @StatsLabDublin

R has a small number of built-in constants.

`LETTERS` : the 26 upper-case letters of the Roman alphabet;

`letters` : the 26 lower-case letters of the Roman alphabet;

`month.abb` : the three-letter abbreviations for the English month names;

`month.name` : the English names for the months of the year;

`pi` : the ratio of the circumference of a circle to its diameter.
